### EDUCATION

Manipal University Jaipur  
Bachelor in Technology 2020

### PROFILE

A committed and highly motivated individual I constantly strive to develop my skills and grow professionally. I have the ability to work in a team, follow instructions and deliver quality results. **Proficiency in all Front-End and Back-End Technologies** alongwith all **Adobe Creative Cloud Programs is my forte**. I have worked with multiple APIs like OMDB, foodtofork and Persistent API. I am also in the **process of learning Android App Development**

### WORK EXPERIENCE

**Persistent Systems**, Software Dev  
MAY 2019 - AUG 2019

- Built a chatbot for the Persistent Systems portal using Microsoft Azure and Microsoft Bot Framework
- Fetchd and posted responses from the API that was hosted by Persistent
- Integrated the bot into Microsoft Teams so that it can be used directly from the chat service

**Bikers Portal (Minor Project)**, Web Dev  
FEB 2019 - MAY 2019

- Developed a social networking site for Bikers using HTML, CSS, JS, jQuery, NodeJS, MongoDB and Express
- Website had Sign-up/Login locally or using Google/FB
- Users can add posts, comment, like or make groups and add friends
- Website was hosted using Digital Ocean for 60 days (bikersportal.tk)

**Oneiros (Cultural Fest)**, Web Dev  
AUG 2018 - OCT 2018

- Was part of the team that made the Cultural Fest website (<https://oneiros.mext.in/>)
- Designed a responsive Sign-up/Login page using HTML5, CSS3 and JavaScript
- Took care of cross browser compatibility and cache issues were fixed
- Extensive use of the Development tools to fix UI issues

**Lets Go: Ladakh**, Videography  
MAY 2018 - AUGUST 2018

- Shot a film on my Nikon D5200
- Edited the film using Adobe Premiere Pro CC and After Effects
- Check out the video on YouTube (<https://www.youtube.com/watch?v=ILwJrgLGyGM>)
